

GDPR

The General Data Protection Regulation (GDPR) is a European Union Regulation which came into effect on 25th May 2018 and replaces the existing Irish Data Protection Acts 1988 & 2003.

At Limerick Sports Partnership we take all aspects of Data Protection seriously and are very mindful of our stakeholders, programme and event participants and all individuals rights of privacy i.e., what data we collect, why we collect it, how we use it and how it is stored.

We want to reassure our stakeholders, programme and event participants and all individuals who meet the Company that we will not share your personal data with third parties and that we will not contact you by email or mobile phone without your prior consent to do so.

We are currently updating our Data Protection Policy, and this will be available to view on www.limericksports.ie. Similarly, a hard copy will be made available to you upon request from the LSP Office.
